

ATLANTIC BUSINESS TECHNOLOGIES, INC.
Domain Name Registration Addendum to Terms and Conditions

SUMMARY: This Domain Name Registration Addendum (“Addendum”) supplements and provides additional terms to the standard Terms and Conditions, including any other addendums, and becomes an integral part of all proposals, contracts, and work supplied to the customers of Atlantic Business Technologies, Inc. (“ABT”) and acceptance of a proposal or contract, or any instructions by Clients to ABT to commence work or services shall be deemed acceptance of this Addendum.

OWNERSHIP:

Domain names which are registered for and paid for by a client are owned by that client and not by Atlantic BT. In order to facilitate domain name management, some of the contact fields associated with the domain name may contain contact information for Atlantic BT.

RENEWAL:

Beginning on 9/9/03, all newly-registered domain names, unless otherwise directed by the client, are set to automatically renew each year at the current rate at time of renewal. The renewal amount will be charged to the client's account. Domain names up for renewal after this date will also be set to auto-renew in the future unless otherwise directed by the client. A client's domain name may be automatically removed from the auto-renewal list if that client has any invoices that are over 90 days overdue or if Atlantic BT has reason to believe that the client will not pay for the renewal.

If a domain name is not set to auto-renew, Atlantic BT will attempt to notify the client by email and/or telephone of impending expirations. While Atlantic BT makes every effort to manage each domain name according to each client's wishes, we are not responsible for the loss of domain names due to a client's failure to supply current contact information to Atlantic BT.
